

## CHECK

### Prerequisites

Must meet all 3 criteria to participate in the CalREDIE eCR Program

- eCR is for healthcare providers treating patients
- Facility must have an EHR system
- All organizational leadership approvals have been granted for eCR (i.e: legal, privacy, EHR capacity)

### TIP

Onboarding to eCR is a joint effort between the CDC, APHL, and CDPH.

## REGISTER

### 1 - Registration

Complete the CalREDIE intake form at the [CalREDIE eCR Registration Portal](#)

- Healthcare facilities sending via eCR to CalREDIE are required to submit the intake form
- CalREDIE uses this registration information to track the facility's onboarding & implementation progress

## AIMS

### 2 - APHL/AIMS Onboarding

Complete technical onboarding between your EHR system and the centralized platform for transmitting eICR messages

- Contact [eCR@CDC.gov](mailto:eCR@CDC.gov) to express interest in AIMS onboarding
- With your EHR vendor, discuss options for meeting the [eCR HL7 CDA guidelines](#) **OR** utilize the [eCR Now FHIR App](#)
- Contact [eCR@CDC.gov](mailto:eCR@CDC.gov) to determine which eCR data sharing policy is best suited for your facility

### TIP

"Carequality" and "eHealth Exchange" data sharing policies for eCR cover the majority of interested providers.

## TESTING

### 3 - CalREDIE Testing

Aided by APHL/AIMS, test sending live eICRs to the CalREDIE Testing environment as CalREDIE reviews for data quality

- Parallel production - Until explicitly notified by CalREDIE, you must continue your current reporting method
- CalREDIE eCR staff will contact you to finalize your facility's move to CalREDIE Production

## PRODUCTION

### 4 - CalREDIE Production

Check for communications from the CalREDIE eCR Team regarding updates and maintenance
